

A postdoctoral associate position is available in the THINC lab (<http://thinc.cs.uga.edu>) of the Computer Science department of the University of Georgia (UGA), in Athens, GA, USA. The position is under the supervision of Prof. Prashant Doshi and is in the area of agent modeling, multi-agent systems and their applications in robotics. The position has very attractive compensation and benefits. For more details, please get in touch with Prof. Doshi at pdoshi@cs.uga.edu.

The University of Georgia (<http://uga.edu>), founded in 1785, is the oldest land-grant university in the nation and the largest university in Georgia (exploregeorgia.com), with a student body of over 34,000. It is located in Athens (<http://www.visitathensga.com/>) a charming and historic university town of about 100,000, approximately 65 miles from Atlanta, with mild winters and warm summers. The University boasts a major Performing Arts Center and the country's best fitness and exercise facility for students and faculty. It has been consistently ranked among the top 20 public universities by U.S. News and World Report.

To apply, please send an email expressing interest to Prof. Doshi at pdoshi@cs.uga.edu with full CV and copies of at least two publications in the areas related to those mentioned above. Successful candidates should have a PhD in Computer Science or a related discipline by May 15 and a publication record in the top relevant conferences. Applications will be evaluated on a rolling basis and will be accepted until the position is filled. The successful candidate will start May 15, 2015 though slightly later start dates could be considered as well.
